

IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~strikethrough~~.

Please REPLACE the fourth full paragraph beginning at page 3, line 13, with the following paragraph:

In accordance with the second aspect of the present invention, ~~in the robot toy~~ in the drive device for a toy according to the present invention, one toy component is arranged on a link facing a frame in a four-section link, the other toy component is arranged on one of swinging links facing each other, the one of the swinging links extending to an opposite side with respect to the frame and a tip thereof rotatably and swingably engaging with a rotating disk at an eccentric position ~~of a rotating disk~~, and both toy components are rotated and perform open and close movements with each other by rotating the rotating disk, before or after the form change.

Please insert a paragraph after the first full paragraph on page 13, as follows:

According to the dinosaur shaped toy, the low jaw 4 is arranged on a link (for example, the bearing 20 to the bearings 28) which faces the frame 13 in the four-section link, the upper jaw 3 is arranged on the link plate 17 facing the cylindrical link 18, the rod 19a is fixed to the link plate 17 extending to the opposite side with respect to the frame 13 and the spherical body 19b of the rod 19a rotatably and swingably engaging with the disk 12 at the eccentric position, and both of the upper jaw 3 and lower jaw 4 are rotated and perform open and close movements with each other by rotating the disk 12, before or after the form change.
